

Men's Shed Llandudno General Rules

1. All power tools brought into the shed by members must be in good condition and safe to use.
2. No-one should use power tools unless suitably experienced – if in doubt seek instruction/guidance.
3. No guards on power tools should be removed or tampered with.
4. No-one should alter or tamper with the electrical supply/wiring without permission from the committee.
5. No flammable materials may be stored in the shed other than paints and finishers in their proper containers.
6. Members may store their own tools in the shed and use tools belonging to the shed but no member should use another members tools without permission.
7. Members may store materials for no more than two personal projects at a time in the shed, large projects will need permission from the committee where this will restrict the use of the shed by other members.
8. All members should put away tools and clean up when they have finished their work for the day.
9. All breakages, damages, accidents or injuries must be reported immediately.
10. No smoking or alcohol in the shed.
